

~~Killer-bots~~ Fluffy innocent kitty

No need to
read further-
fluffy overload
No murderous
plot,
I swear.

The tail

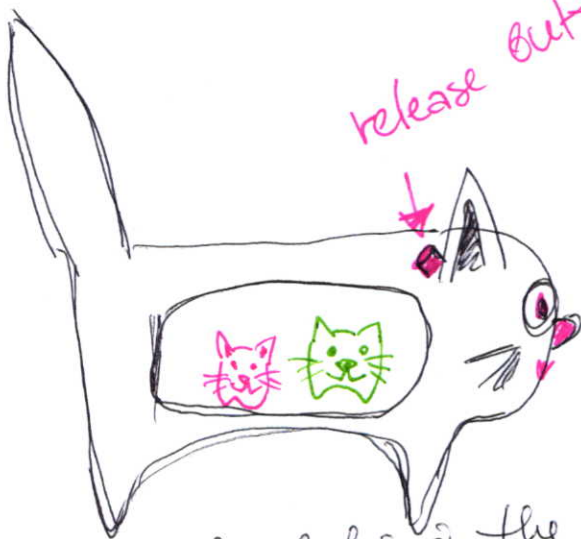

Biological
weapon
container,
ver 3.0
comes with
built-in, phone
controlled rocket launcher

The paws

Poison-dipped
scratchers on
front paws.
Back paw nails cut
through glass to
enter buildings.

The inner magic

Scratch behind the ear
releases minion-bottles
(+10 inside every specimen)

Mini-kitty-bot

Furry-soft
hangers of
death carry
all the features of
the older
+ a free
black plague.
